

HYBRID AND ELECTRIC
DRIVELINE SYSTEMS BY 

MERCEDES B 200 CDI

Technology Demonstrated

- e-AAM™ Hybrid and Electric Driveline Systems

Features / Benefits of Technology

Features:

- Torque Vectoring
- Hybrid Functionality
- E-boost
- Electric All-Wheel Drive
- Electric Traction Control
- E-Drive
- Brake Regeneration
- Coast Regeneration
- Load Point Shifting

Benefits:

- Improved Fuel Economy
- Improved Vehicle Performance and Drive Quality
- Improved Handling and Stability

Description of Modification

- AAM Full Hybrid Vehicle Integration
- e-AAM™ 50kW Electric Drive Unit
- e-AAM™ Electric Torque Vectoring
- e-AAM™ Power Box Unit
- e-AAM™ Vehicle & System Software & Controls
- High Voltage Battery
